

The Civic Mirror Summer Institute

Preparing Our Students for the Social Studies CBAs with a 21st Century Education Program

ATTENTION WASHINGTON STATE SOCIAL STUDIES TEACHERS:

The Edmonds School District is proud to host the United States' first Civic Mirror Summer Institute, offering Washington state teachers an opportunity to learn how to use *The Civic Mirror* – an online and face-to-face game-based education program that turns classrooms into countries and students into citizens – and prepare your own exciting unit and/or course plan that uses the program to prepare students for the CBAs! The Civic Mirror provides teachers and students with a 21st Century a learning engine; one that's digital, game-based, and customizable, and one that makes the classroom more important than ever! Join us in this cutting-edge initiative.

DAY 1

Learn how *The Civic Mirror* works by playing it with other teachers. You will become a citizen, a politician, business-owner and more by living in a simulated country with other teachers.

DAY 2

A blend of game-play and break-out sessions where teacher-groups co-develop unit & course plans that utilize *The Civic Mirror's* offerings to prepare students for the S.S. CBAs.

AFTERWARD

Leave with a new and exciting unit and/or course plan plus the ability to use *The Civic Mirror* in your own classroom to ignite student interest and prepare them for the CBAs in a fun way.

The Civic Mirror can be used for any course, unit, or subject that deals with government, law, citizenship, economics, morality and character education. It's been used in 50 schools across North America with huge successes, most notably in the Edmonds School District. Over the years, students who have participated in *The Civic Mirror* have been saying the same 2 things over and over:

- When I watch the news now, I get it!
- I finally understand how everything in society fits together.
