The serving district will report all eligible students served by the cooperative on the appropriate state and federal count reports for the purpose of crediting the special education apportionment funds to the appropriate resident district. ("Eligible students" is inclusive of those students in the cooperative who are attending classes outside their resident school district boundaries.) The serving district of the cooperative will report on Form P-223 all students who are attending classes within its boundaries for the purpose of receiving basic education apportionment funds.

6. The serving district agrees that all children will be enrolled on a full-time basis.
7. Each resident district retains responsibility for providing transportation services to and from each child's home and place of learning inside or outside the child's resident district. Each resident district agrees to pay its share of actual costs for any transportation provided by the serving district from one place of learning to another place of learning during the school day (e.g., field trips).
8. Each resident district agrees to reimburse the serving district for any excess cost of their students' programs.

The excess costs for serving students from participating districts will determine the student's service level fee. The service levels are described on the attached Fee Schedule, which will be revised for each succeeding year of the agreement.

Billings are to be sent to participating districts as soon as is possible after the end of each semester in order to be paid from current budget accounts which close August 31.

In the event that a student could either enter or withdraw from the serving district program during the course of this agreement, the annual fee for that student will be pro-rated on the basis of the percentage of the school days actually enrolled and served.

To determine excess costs, the serving district will calculate:

<u>Expenditures:</u>	Budget Expense – Special Education Program Costs with indirect costs applied using the district restricted indirect rate.
Less	
<u>Revenue:</u>	Basic Education Apportionment – for students not mainstreamed, ages 5-21.

9. Each party to this agreement acknowledges that their entering into this interdistrict cooperative arrangement may result in financial commitments by other parties to this agreement, and therefore, agree they will not terminate this agreement without the consent of the serving district and any other party to this agreement that would suffer financially thereby.

In the event of such unilateral termination without consent, the terminating party agrees to indemnify and pay other parties that have not agreed thereto for any financial loss which results from such termination. Any party to this agreement may request that the Superintendent of Public Instruction appoint an arbiter, if necessary, to resolve disputes related to premature termination and all parties agree to accept the findings of such arbitration.

10. All assets acquired by the serving district and placed in service for the cooperative during this agreement shall remain the property of the serving district. Any asset acquired by a resident district and used in the program, because a program component is situated within the resident district, will remain the property of the resident district unless the value of the asset is applied to the amount owed to the serving district, in which case the asset will become the property of the serving district.
11. Each party to this agreement acknowledges that while this agreement is for five school years, program development is continuous and long-range planning a requisite; that their entering into this agreement may carry implications for succeeding school years. Therefore, each party agrees to announce their participation intentions for the succeeding school year no later than April 15. While such arrangement is not binding, such notification of intent is to be considered carefully and not thereafter modified except for good cause.
12. Each of the parties agrees that this interdistrict cooperative arrangement is necessary and desirable for the following reasons:
- a. The effect on program operations is to provide educational programs not otherwise available.
 - b. The effect on costs and funding is to avoid unnecessary duplication of specialized or unusually expensive program or facilities.
13. Each party to this agreement acknowledges that Chapter 28A.155 RCW and Chapter 392-172 WAC impose responsibilities on each resident district and that those responsibilities are not extinguished by delegation, in part or in total, under this cooperative arrangement. Hence, the serving district agrees that each resident district will be provided sufficient data to enable the resident district to evaluate the extent to which its responsibilities retained by the individual parties to this agreement shall include but not be limited to the responsibility to assure that their particular students are receiving an appropriate education and to conduct student/parent appeals, all as required by Chapter 28A.155 RCW and Chapter 392-172 WAC.

This agreement is for a five-year period, beginning with the 2006-2007 school year and expiring at the end of the 2010-2011 school year, and was approved by each respective board of directors. Signed copies of each respective school district board minutes or resolution approving the agreement are available for inspection at each respective school district administration office.

IN WITNESS WHEREOF, the following school districts have executed this agreement pursuant to resolution by each district Board of Directors as of the day and year set forth below.
