

Welcome to Martha Lake Elementary

→ 2007-09 PERFORMANCE REPORT

About Our School

We believe that reading is the cornerstone of student success. Collaboratively from grade to grade, we take steps to ensure that every child has the opportunity to become proficient readers who are able to make meaning of what they read, solve problems, and communicate their thinking. Students benefit from staff professional development days as staff members collaborate within and across grade levels to create a cohesive and consistent learning environment.

Daily blocks of time for reading, writing, and math are given to students in grades 1-6, from 60 to 70 minutes, with additional time for independent reading and mental math exercises. We will focus on the new state math standards and utilize our new, district-adopted materials, "Math Expressions" as we continue to engage students in math.

Our school-wide focus on monthly themes around Character Education continues to be implemented to improve the school climate. We encourage our students to take on leadership and service roles within the school and offer opportunities for involvement in student friendship groups, class meetings, buddy rooms, and student clubs.

We work together to reach our goal that all students become proficient readers who are able to make meaning of what they read, solve problems, and communicate their thinking.

Our Door is Open...

We are pleased to provide you with our annual School Performance and Report Card. The information provides you with a brief glance at Martha Lake and what we have to offer you and your child.

We welcome you to become involved in our school by becoming a volunteer. We have individual students who would benefit from one-to-one tutoring in basic skills. Please contact the office if you are interested.

Washington Assessment of Student Learning (WASL)

2007-08 WASL Results

Our students in grades 3-6 completed the Washington Assessment of Student Learning (WASL) in all subjects or a combination of subjects covering reading, math, writing, and science. WASL results for our school, our district and Washington state, are displayed here. If you have questions or would like more information about these results, please contact our principal or visit the state Office of the Superintendent of Public Instruction's website at www.k12.wa.us.

Continued Learning: *Staff Professional Development & Our School Year Calendar*

Our teachers are learners too. In order to provide all students the best education possible, teachers work throughout the year to strengthen their own skills and abilities. A key way this is accomplished is through Professional Development Days, which are days when students do not attend school. Determining how this time without students is used and when these days are scheduled is important and thoughtfully reviewed and discussed throughout each school year by our parent committee, called Citizen Planning Committee (CPC), as well as staff.

These days are woven into the school year to provide teachers with the opportunity to immediately apply what they are learning to their instruction time with students. We encourage you to ask us about how we use this time in our building and work to share that information through our school newsletters. Over the next several years, we will be sharing information on our work to see if existing time can be used even more effectively in supporting each student's learning needs. We look forward to sharing more information about this during the year.

Fulfilling our Promise to our Citizens

The voter-approved 2004 Technology/Capital Levy and 2006 Capital Construction Bond have brought much-needed improvements and upgrades to the Edmonds School District and our school.

At Martha Lake, the four-year 2004 Technology/Capital Levy dollars will:

- Technology: Install a projector, document presenter, and instructional laptop in each classroom
- Technology: Install mobile lab equipment
- Technology: Install additional computers in classrooms

The 2006 Capital Construction Bond dollars will:

- Install emergency storage structure
- Upgrade data cabling

Voters approved a renewal of the Technology/Capital Levy in 2008, and that funding will continue to build upon projects first funded by the 2004 levy. For more information, please visit the district web-site at www.edmonds.wednet.edu.

Our School Celebrations

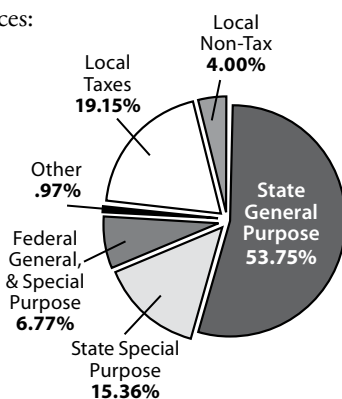

- Martha Lake received a \$1,434 Public Education Foundation (PEF) grant in 2008 for “Exploring Independent Reading,” which teaches students how to choose appropriate books and encourages and challenges them to continue reading books in their homes.
- Our school-wide Multicultural Day helps students gain an understanding of the different cultures that thrive within our school.
- We celebrated the life of Dr. Martin Luther King, Jr. with a school-wide assembly with presentations and songs in 2008. Featured during the assembly was a multimedia presentation of Dr. King’s legacy written and illustrated by teacher Chris Lambert’s third-grade class.

How our Schools are Funded

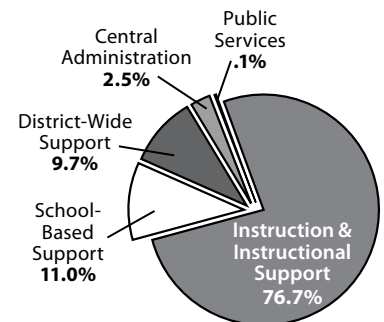

Revenue Sources

Schools receive funding from several revenue sources. This chart represents the division of that revenue into six sources: local taxes; local non-tax; state general purpose; state special purpose; federal general and special purpose; and other, including funds from other school districts, agencies and sources.

Expenditures

Most of the dollars in the school district budget are allocated according to specific formulas. For example, the number of students in a given school generates a specific number of teachers. With the actual expenditures of \$173.7 million and 20,146 full-time students, Edmonds School District expended \$8,622 per student in 2006-07. This chart represents the division of that expenditure into five categories: central administration; instruction and instructional support, including teachers, specialists, and principals; school-based support, including custodians, maintenance, food service and utilities; district-wide support, including curriculum development, transportation, and data processing; and public services.

MARTHA LAKE ELEMENTARY

Enrollment - 590

Languages - 27

Amharic, Arabic, Bengali, Bulgarian, Burmese, Cambodian, Chinese-Cantonese, Chinese-Mandarin, Chinese-Unspecified, English, Farsi, French, Hindi, Indonesian, Khmer, Korean, Kurdish, Lao, Malayalam, Marshallese, Punjabi, Russian, Spanish, Tagalog, Thai, Ukrainian, Vietnamese

Ethnicity Percentages

American Indian/Alaskan Native:	1%
Asian:	27%
Black/African American:	5%
Hispanic or Latino:	10%

Attendance

2006-07	2007-08
96%	96%

Students who come to school every day have a better chance to learn. These figures represent the average daily attendance rate for the school year.

Our School Building

Opened: 1993

Square footage: 50,753

Community groups that use the school: AAU Basketball, Alderwood Boys & Girls Club, Woodtrails Home Owners Association, Covington Crest Home Owners Association, and Martha Lake PTA.

School Mission

Our mission is to create an environment that offers all students opportunities to participate in challenging, authentic and collaborative inquiry by providing engaging learning experiences reflective of diverse teaching and learning styles.

Why a School Performance Report?

In 1993, Washington state adopted education reform legislation. As part of that effort, each school in the state annually provides its parents and the community with a yearly update of its progress in key areas.

In 2001, the federal No Child Left Behind Act was adopted. As part of that effort, schools are providing detailed information about student progress on state assessments, teacher quality, and other key demographic data.

How Can I Learn More?

We strongly encourage you to visit our school to see for yourself what we are doing to help all students be successful. Further information is also available from the Edmonds School District web site (www.edmonds.wednet.edu). Individuals without internet access or who desire a printed copy of the school report card can contact the Edmonds School District Community Relations office at (425) 431-7045.

Meet Your School Board

Comprising five director districts, the Board of Directors conducts the business of the Edmonds School District. The board meets alternate Tuesdays at 6:30 p.m. in the Board Room at the Educational Service Center, 20420 68th Ave. W., Lynnwood. Study sessions, at which the board does not vote on matters, are held as needed on alternate Tuesdays at 6 p.m.

Susan Paine

President
Director District 1
Term expires: Nov. 2011

Gary Noble
