

Edmonds School District #15

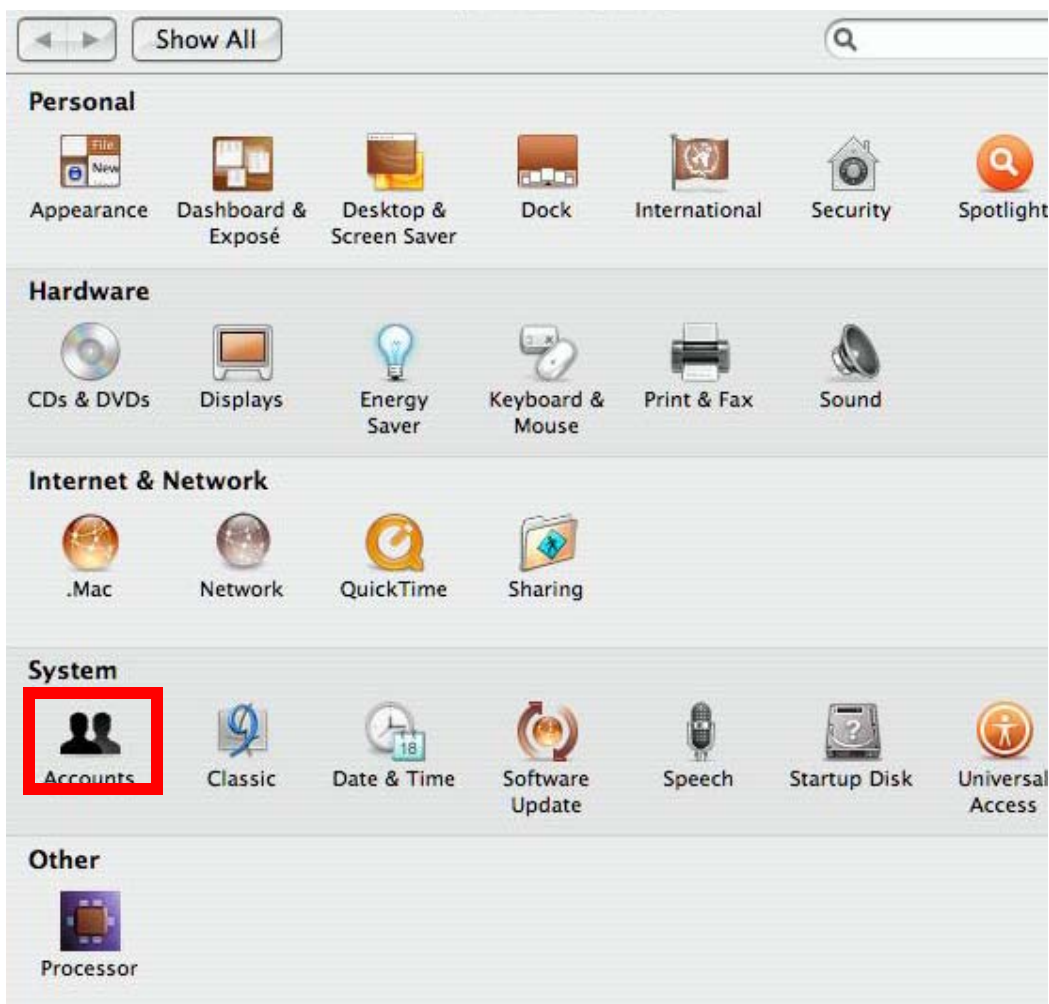

Apple iBook Training

Allow Student Use of Applications

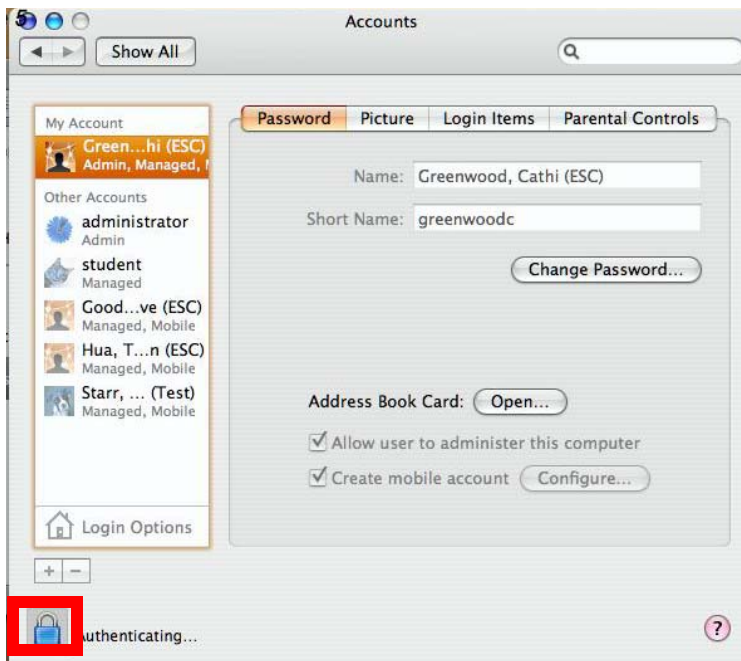

If you install new software on your iBook, it may not run when students are logged on. Follow these steps to allow student use of these applications.

NOTE: In order to follow these steps, you must have administrative rights on your iBook. Please call the Help Desk at x. 7333 if you do not have administrative rights.

1. Log on as yourself
2. From the **Apple** menu, choose **System Preferences**
3. Click **Accounts**

4. In the *Accounts* window, click the **lock icon**

5. Type your **password** and click **OK**

6. Click the **student** account

7. Click **Parental Controls**

8. Next to *Finder & System*, click **Configure**

9. Click the arrow next to **Applications**

10. Scroll to the application(s) students cannot run, and put a check in the box(es)

11. Click **OK**

12. Click the Lock

13. Log off and log on as student. You should be able to run the application(s)
