

Seaview Elementary School

Mission Statement of School and District

The Edmonds School District engages students, staff, families, partners and the broader community in the district's Strategic Direction. Together, along with every school, results have been identified that we want for our students. The continual improvement of our schools is essential in providing increased student performance and quality results. Innovative, exemplary, and research-based programs, coupled with professional development, focused and aligned resources, and community participation in decision making and planning are essential elements in improving schools. For more detailed information, please visit our school's improvement plan or give us a call at your convenience.

About Us

Our school is a great place to learn, where new learning is happening every day. We are working to support all students experiencing a safe, nurturing and inclusive learning environment through positive behaviors.

Interim Principal: Heather Pickar
Assistant Principal: Julie Echols

Academic Accomplishments and Goals Strategic Direction Focus Areas

In 2018-19, we will expose our students to rigorous questioning that requires them to make sense of, and understand math problems posed in a variety of ways. We will continue to focus on increasing math talk within daily instruction. Our expectation is that students will be able to persevere in solving problems and be better able to justify and explain their reasoning.

We will continue to refine our conceptual understanding of the K-6 Priority Standards, specifically focusing on Math Practices 5-8:

- Use of appropriate tools strategically,
- Attending to Precision,
- Looking for and making use of Structure, and
- Looking for and expressing regularity in repeated reasoning.

We believe that creating engaging mathematical experiences in our classrooms will result in mathematical achievement for all students.

As a result of this work we expect that:

Compared to 67% percent of tested students meeting standard on the math portion of the state's spring 2018 test, 75% percent of tested students will meet standard on the math portion of the state test in spring 2019.

For more detailed information, please visit our school's improvement plan or give us a call at your convenience.

How You Can Help

We welcome you to our school by becoming a volunteer. We have individual students who would benefit from one-to-one tutoring in basic skills and many other ways that you can participate! Please contact the school office if you are interested in becoming a volunteer, we will welcome you!

State Assessments

Washington students are tested annually by the state to assess their progress as they move through school. In grades 3-8 students take tests in English language arts, math and science. Please see [our School Report Card](#).

Financial Resources

Annually, we produce a Citizens Guide to the District's Budget. One of our highest priorities is being excellent stewards of our community's resources. Each year, we involve staff, students, families and community members in helping us to set budget priorities. For more information on school funding, we encourage you to refer to the [2017-18 Citizens Guide to the Budget](#).

The state provides \$8,662 per pupil to our District

About Our Building

Opened: 1961

Square footage: 49,420

Remodeled: 1997 (Modernization)

We are proud that our school facility is used extensively by our community for meetings, events and youth activities.
