Mission Statement of School and District

The Edmonds School District engages students, staff, families, partners and the broader community in the district's Strategic Direction. Together, along with every school, results have been identified that we want for our students. The continual improvement of our schools is essential in providing increased student performance and quality results. Innovative, exemplary, and research-based programs, coupled with professional development, focused and aligned resources, and community participation in decision making and planning are essential elements in improving schools. For more detailed information, please visit our school's improvement plan or give us a call at your convenience.

Academic Accomplishments and Goals – Focus Areas

Our goal is to work with teachers and staff to provide meaningful assessment of students' knowledge in literacy, and foundational reading skills, and to then analyze our students' areas of need to improve learning through a proactive, data-driven, culturally responsive process. We will strive to have targeted instruction, grounded in research and best practices, resulting in successful learning for all of our students, thus building a solid reading and literacy foundation.

Financial Resources

Annually, we produce a Citizens Guide to the District's Budget. One of our highest priorities is being excellent stewards of our community's resources. Each year, we involve staff, students, families and community members in helping us to set budget priorities. For more information on school funding, we encourage you to refer to the [2018-19 Citizens Guide to the Budget](#).
