

Edmonds eLearning Academy

About Us

The Edmonds eLearning Academy is an online learning community that serves any Edmonds School District student in grades 7-12. The majority of our students are part-time or blended, meaning they take one or two classes with us and the rest at their traditional school. We have over 100 full-time students for whom we provide all of their educational needs. Our school and classes are free if a student takes a course within their regular six-period day.

What sets us apart from other online schools? We have an on-site Student Learning Center where students can receive help from Edmonds School District certified teachers. The Student Learning Center and our success with students gave us the distinction of one of the Top 10 Alternative Learning Experience (A.L.E.) Schools in the state of Washington. Last year, 1 in 6 graduates of the Edmonds School District had taken an Edmonds eLearning course and we expect that number to continue to grow.

Mission Statement of School and District

The Edmonds School District engages students, staff, families, partners and the broader community in the district's Strategic Direction. Together, along with every school, results have been identified that we want for our students. The continual improvement of our schools is essential in providing increased student performance and quality results. Innovative, exemplary, and research-based programs, coupled with professional development, focused and aligned resources, and community participation in decision making and planning are essential elements in improving schools. For more detailed information, please visit our school's improvement plan or give us a call at your convenience.

State Assessments

Washington students are tested annually by the state to assess their progress as they move through school. In high school, students take tests in English language arts, math and science. Please see [our School Report Card](#).

Academic Accomplishments and Goals – Focus Areas

Our Vision: “Authentic and Innovative Learning: Collaboratively preparing students for success in today’s global community.”

Edmonds eLearning Academy (EeLA) is one of the few fully accredited, public, online high schools in the state of Washington. As a school, we are available to 7th through 12th-grade students in the district. Students can choose to come to EeLA either as a full-time student or as a part-time student shared with their home school.

- EeLA students are able to accelerate their course-pacing and learning potential, leading to the ability to earn credits at a faster pace and meet state and district learning and graduation requirements.
- EeLA staff is committed to creating a multi-tiered system of support to provide for the ever increasing academic, behavioral, and social-emotional needs of all students in

- order to increase course completion rates at each grade level.
- EeLA teachers:
 - Customize courses to differentiate and meet the needs of diverse learners,
 - Create a culture of learning by conveying an expectation of high levels of student effort and by demonstrating a high regard for students' abilities,
 - Work with students in the Student Learning Center to support them in meeting their academic goals and managing their time, as well as practicing self-advocacy,
 - Provide focused feedback to enrich student understanding of, and engagement with, the curriculum. Another benefit of providing individualized feedback in an online environment such as ours is to create and build relationships.

How You Can Help

Our parents and families are an intricate part of our team. Attending orientation with your student(s), monitoring your parent portal, responding to our bi-yearly family survey, and feedback are ways in which our families are ongoing sources of support to our school.

Financial Resources

Annually, we produce a Citizens Guide to the District's Budget. One of our highest priorities is being excellent stewards of our community's resources.

Each year, we involve staff, students, families and community members in helping us to set budget priorities. For more information on school funding, we encourage you to refer to the [2019-20 Citizens Guide to the Budget](#).
