**Edmonds**  
SCHOOL DISTRICT

Each student learning, every day!

### About Us

Chase Lake Community School is a child-centered community of students, teachers and staff who work together to provide an enriched learning environment for all ages. We care for each child as an individual, and promote ongoing learning for all ages.

Our classrooms are filled with joy and learning. People who visit us often ask why we are called a community school, and what is different about us. The word community was included in our name to remind us that schools work best when we all work together. Families, volunteers, neighbors and staff form a strong team to ensure the safety and learning of Chase Lake students. This teamwork is built on the beliefs and expectations for all members of our community.

### Mission Statement of School and District

The Edmonds School District engages students, staff, families, partners and the broader community in the district's Strategic Direction. Together, along with every school, results have been identified that we want for our students. The continual improvement of our schools is essential in providing increased student performance and quality results. Innovative, exemplary, and research-based programs, coupled with professional development, focused and aligned resources, and community participation in decision making and planning are essential elements in improving schools.

For more detailed information, please visit [our school's improvement plan](#) or give us a call at your convenience.

### Academic Accomplishments and Goals Strategic Direction Focus Areas

At Chase Lake Community School, we will continue to refine our conceptual understanding of the K-6 critical math domains within a growth mindset culture, and engage students in rigorous, meaningful mathematical experiences. Our goal is improved mathematical achievement for all.

As a result of this work we will strive to increase the number of students meeting mathematics standards in state testing in the spring of 2017.

For more detailed information, please visit [our school's improvement plan](#) or give us a call at your convenience.

### How You Can Help

We welcome you to become involved in our school by becoming a volunteer. We have individual students who would benefit from one-to-one mentoring in friendship and basic skills. Please contact the school office if you are interested.

### About our Building

Opened: 2000

Square footage: 57,697

We are proud that our school facility is used extensively by our community for meetings, events and youth activities.

### Financial Resources

Annually, we produce a Citizens Guide to the District's Budget. One of our highest priorities is being excellent stewards of our community's resources. Each year, we involve staff, students, families and community members in helping us to set budget priorities. The state provides \$8,662 per pupil to our District. For more information on school funding, we encourage you to refer to the [2016-17 Citizens Guide to the Budget](#).

### State Assessments / Staff and Student Data / Supplemental Programs

Washington students are tested annually by the state to assess their progress as they move through school. In grades 3-8 students take tests in English language arts, math and science. Student scores on these tests determine a school's adequate yearly progress, also known as AYP. To view our test results, data about our teachers and students, and supplemental programs please visit [our School Report Card](#).
