**Edmonds**  
SCHOOL DISTRICT

Each student learning, every day!

### About Us

We are a diverse family of students, parents, teachers and community members working together to create a dynamic, rigorous, caring and passionate learning environment.

### Mission Statement of School and District

The Edmonds School District engages students, staff, families, partners and the broader community in the district's Strategic Direction. Together, along with every school, results have been identified that we want for our students. The continual improvement of our schools is essential in providing increased student performance and quality results. Innovative, exemplary, and research-based programs, coupled with professional development, focused and aligned resources, and community participation in decision making and planning are essential elements in improving schools.

For more detailed information, please visit [our school's improvement plan](#) or give us a call at your convenience.

### Academic Accomplishments and Goals

#### Strategic Direction Focus Areas

We, as staff, students, and community, continue to refine our conceptual understanding of the K-6 critical math domains. We make sense of problems and persevere in solving problems, striving to grow in a culture of student driven learning. We will lead in teaching mathematics and expect improved math achievement for all students.

For more detailed information, please visit [our school's improvement plan](#) or give us a call at your convenience.

### How You Can Help

We Welcome You! You can become involved in our schools by becoming a volunteer. We have individual students who would benefit from one-to-one tutoring in basic skills. Please contact the school office if you are interested in joining our family at College Place.

### About our Building

Opened: 1969

Square footage: 48,180

Remodeled: 1992

We are proud that our school is extensively used by our community for meetings, events and youth activities.

### Financial Resources

Annually, we produce a Citizens Guide to the District's Budget. One of our highest priorities is being excellent stewards of our community's resources. Each year, we involve staff, students, families and community members in helping us to set budget priorities. The state provides \$8,662 per pupil to our District. For more information on school funding, we encourage you to refer to the [2016-17 Citizens Guide to the Budget](#).

### State Assessments / Staff and Student Data / Supplemental Programs

Washington students are tested annually by the state to assess their progress as they move through school. In grades 3-8 students take tests in English language arts, math and science. Student scores on these tests determine a school's adequate yearly progress, also known as AYP. To view our test results, data about our teachers and students, and supplemental programs please visit [our School Report Card](#).
