Edmonds
SCHOOL DISTRICT

Each student learning, every day!

About Us

At Lynnwood High School we work to create an environment that encourages staff and students to learn and develop academically, emotionally, physically and socially. We strive to instill pride in self and school and to produce independent learners capable of critical thinking and participating in a global community.

We believe that...

- Every student is a unique individual with different strengths and needs who has the potential to be successful.
- Success in the classroom is connected to real engagement by our students.
- When students are in danger of not being successful, we must respond as individuals and a system to intervene.

Mission Statement of School and District

The Edmonds School District engages students, staff, families, partners and the broader community in the district's Strategic Direction. Together, along with every school, results have been identified that we want for our students. The continual improvement of our schools is essential in providing increased student performance and quality results. Innovative, exemplary, and research-based programs, coupled with professional development, focused and aligned resources, and community participation in decision making and planning are essential elements in improving schools.

For more detailed information, please visit [our school's improvement plan](#) or give us a call at your convenience.

Academic Accomplishments and Goals

Strategic Direction Focus Areas

In 2016-17 we will:

- Strengthen teaching through strong engagement and differentiation practices
- Create connections to all students and their families
- Develop a system of both institutional and individual interventions for struggling students that are both early and progressive
- Continue to explore ways to change our structure to promote success
- Support Professional Learning Communities and collaboration
- Provide professional development around effective interventions, culturally responsive teaching and differentiation of instruction
- Safeguard the value of instructional time

As a result of this work we will:

- Create a respectful collaborative environment of students, teachers and parents in which all students, including struggling students, will be able to learn
- Improve academic success, graduation rates, attendance and student involvement
- Improve student engagement in classrooms so that students will experience academic success as evidenced by student learning and course completion

Additionally: Compared to 2015 - 2016 school year, in 2016 - 2017 school year, average student GPA will increase 5 percent (from 2.6 to 2.67).

For more detailed information, please visit [our school's improvement plan](#) or give us a call at your convenience.

How You Can Help

Lynnwood High School has a strong Parent Teacher Student Association as well as a Booster Club that supports our students, staff and programs in many ways through fundraisers and various events. We welcome you to become involved in our school by becoming a volunteer. Please contact the school office if you are interested.

About Our Building

Opened: 2009

Square Footage: 218,000

We are proud that our school facility is used extensively by our community for meetings, events and youth activities.

Financial Resources

Annually, we produce a Citizens Guide to the District's Budget. One of our highest priorities is being excellent stewards of our community's resources. Each year, we involve staff, students, families and community members in helping us to set budget priorities. The state provides \$8,662 per pupil to our District. For more information on school funding, we encourage you to refer to the [2016-17 Citizens Guide to the Budget](#).

State Assessments / Staff and Student Data / Supplemental Programs

Washington students are tested annually by the state to assess their progress as they move through school. In grades 3-8 students take tests in English language arts, math and science. Student scores on these tests determine a school's adequate yearly progress, also known as AYP. To view our test results, data about our teachers and students, and supplemental programs please [our School Report Card](#).
