Edmonds
SCHOOL DISTRICT

Each student learning, every day!

About Us

At Martha Lake we strive to create an environment that offers all students opportunities to participate in challenging, authentic, and collaborative inquiry by providing engaging learning experiences reflective of diverse teaching and learning styles.

Mission Statement of School and District

The Edmonds School District engages students, staff, families, partners and the broader community in the district's Strategic Direction. Together, along with every school, results have been identified that we want for our students. The continual improvement of our schools is essential in providing increased student performance and quality results. Innovative, exemplary, and research-based programs, coupled with professional development, focused and aligned resources, and community participation in decision making and planning are essential elements in improving schools.

For more detailed information, please visit [our school's improvement plan](#) or give us a call at your convenience.

Academic Accomplishments and Goals

Strategic Direction Focus Areas

In 2016-17 we will focus on learning, implementing and engaging in best practices around cycles of inquiry toward high-result, student-driven engagement strategies. As a result our students will be able to read, write, speak, perform work and discuss thoughts and ideas that are grounded in evidence.

Our whole school achievement goal as a result of this action: Compared to 49.5 percent of tested students meeting standard on the math portion of the state's spring assessment in 2016, 54.5 percent of tested students will meet standard on the math portion of the state assessment in spring 2017.

For more detailed information, please visit [our school's improvement plan](#) or give us a call at your convenience.

How You Can Help

We have a strong volunteer base and a national father involvement program called Watch D.O.G.s to provide positive male role models for Martha Lake students. We welcome you to become involved in our school by becoming a volunteer. We have individual students who would benefit from one-to-one tutoring in basic skills as well as a wide variety of additional volunteer opportunities. Please contact the school office if you are interested, we would welcome your involvement!

About our Building

Opened: 1993

Square Footage: 50,753

We are proud that our school facility is used extensively by our community for meetings, events and youth activities.

Financial Resources

Annually, we produce a Citizens Guide to the District's Budget. One of our highest priorities is being excellent stewards of our community's resources. Each year, we involve staff, students, families and community members in helping us to set budget priorities. The state provides \$8,662 per pupil to our District. For more information on school funding, we encourage you to refer to the [2016-17 Citizens Guide to the Budget](#).

State Assessments / Staff and Student Data / Supplemental Programs

Washington students are tested annually by the state to assess their progress as they move through school. In grades 3-8 students take tests in English language arts, math and science. Student scores on these tests determine a school's adequate yearly progress, also known as AYP. To view our test results, data about our teachers and students, and supplemental programs please visit [our School Report Card](#).
