

AMP SUMMER 2017

THE
AEROSPACE
MAKER
PROJECT

- Earn 2 Mechanical Engineering credits from UW.
- Learn the iterative process, materials science, and engineering design.
- Produce objects of your own design on our 3D printers.
- Submit projects to our online interface and come to our Makerspace for experiments.
- Share your work and collaborate on a final project.

- AMP enrollment is \$350. Members save \$30.
- 2017 Spring session ends June 30.
2017 Winter session ends December 16.
- Contact makers@futureofflight.org to sign up or for more information.
