

# Symptoms Screening Attestation

First Name: \_\_\_\_\_ Last Name: \_\_\_\_\_

Parent/Guardian Name: \_\_\_\_\_

1. Have you had close contact within the last 14 days with anyone with confirmed COVID-19?  
Yes> You should not be in school or work. You are able to return 14 days after the last time you had close contact with someone with COVID-19.  
No> You are able to be at school or work if not experiencing symptoms.
2. Do you currently or in the previous 24 hours, have any of the following symptoms noted below that are not caused by another condition?

Fever of 100.4 °F or higher	Headache
Chills	Sore throat
Shortness of breath or difficulty breathing	Congestion or runny nose
Cough	Nausea or vomiting
Recent loss of taste or smell	Diarrhea (2 or more loose stools in 24 hours)
Muscle or body aches	Unusual Fatigue
3. Have you had a positive COVID-19 test for active virus in the past 10 days?  
Yes> If you have been diagnosed with COVID-19 based on a test you should not be in school or at work and should stay at home until you meet the criteria to return.  
No
4. Within the past 14 days, has a public health or medical professional told you to self-monitor, self-isolate, or self-quarantine because of concerns about COVID-19 infection?  
Yes> You should not be in school or work. You are cleared to return to school or work based on the guidelines below.  
No>

You can return to school/work when:

- If you have not been tested for COVID-19, you can return when it has been at least 10 days since the onset of symptoms AND at least 24 hours with no fever (without the use of fever-reducing medicines) AND symptoms have improved.
- If you have received a negative COVID-19 test, stay home for 24 hours after the fever resolves AND symptoms are improving OR per condition diagnosed by healthcare provider. WHICHEVER IS LONGER.
- If you have received a positive COVID-19 test result, you can return when at least 24 hours have passed since recovery - defined as no fever without the use of medications AND improvement in respiratory signs like cough and shortness of breath AND at least 10 days have passed since onset of symptoms.
- If you have received a positive COVID-19 test result and have had no symptoms, you may return to work 10 days after the positive test result.

I attest that the following information is true to the best of my knowledge as of:
