Set your keyboard language

1. Click your account photo.
2. Click Settings ⚙ > **Advanced**.
3. Click **Language** > **Add languages**. Select your language(s) and click **Add**.
4. In the "Languages and input" section under "Keyboard", click **Input method > Manage input methods**.
5. Check the boxes next to the keyboard languages you'd like to use.
6. Click Back ← .

Turn on the Onscreen Keyboard

1. Under "Accessibility," tap or click **Manage accessibility features**.
2. Under "Keyboard," tap or click **Enable on-screen keyboard**.

Switch between keyboard languages

If you have more than one keyboard language turned on, you'll see the language you're using next to your account photo.

1. Click your account photo.
2. Click your keyboard language ⌨ .
3. Choose the keyboard language you want to use.
