

#### Current Alcohol Use for Edmonds Elementary (Edmonds School District), page 1 of 2

Year: 2012 Grade: 6 Gender: Both Number of Students Surveyed: 42

#### Background:

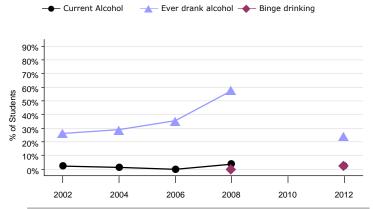

- · Alcohol is implicated in nearly a third of youth traffic fatalities. It is also associated with violence, suicide, educational failure, and sexual activity.
- · Contrary to earlier beliefs, recent research shows that alcohol can affect the developing adolescent brain.
- Most kids find it easy to get alcohol from friends, at parties, or from home.

#### Current (past 30 days) Alcohol Use Compared to the State, All Grades, 2012

#### **Asthma for Edmonds Elementary (Edmonds School District)**

Year: 2012 Grade: 6 Gender: Both Number of Students Surveyed: 42

#### Background:

- · Youth who smoke are more likely to have asthma.
- Asthma is a lung disease that causes trouble with breathing, usually in episodes called attacks. An attack can be triggered by exercise, exposure to smoke, mold, allergens like pet dander, and air pollution such as diesel exhaust.

#### Lifetime Asthma Compared to the State, All Grades, 2012 40 State Local 30% % of Students 10% 0% 8th 10th 12th 10th **Prevalence** 6th 8th 12th Local 21% ±13 N/G N/G N/G State 16% ±1 19% ±1 22% ±2 23% ±2

All youth with asthma should have a written asthma action plan to follow in the event of an attack.

Asthma can be controlled by avoidance of asthma triggers, regular health care visits, compliance with medication schedules, and maintaining appropriate weight.

- Visit the Asthma Program's website at:www.doh.wa.gov
- Washington Asthma Initiative's website at: www.alaw.org/asthma/washington\_asthma\_initiative

#### **Community Risk Factors for Edmonds Elementary (Edmonds School District)**

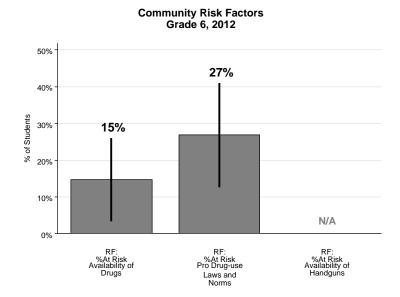

Year: 2012 Grade: 6 Gender: Both Number of Students Surveyed: 42

#### Background:

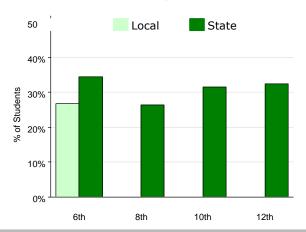

- Research shows that the risk factors measured by the Healthy Youth Survey are linked to adolescent substance use, delinquency, violence, school
  dropout, and other risky health behaviors.
- · The more risk factors a youth is exposed to, the more likely it is that she or he will engage in problem behaviors.

#### For More Information:

#### **Current Substance Use for Edmonds Elementary (Edmonds School District)**

Year: 2012 Grade: 6 Gender: Both Number of Students Surveyed: 42

#### Background:

- · Parents are the primary influence on their children's decision to use alcohol, tobacco, and other drugs.
- · Brain development continues into the early twenties. The growing brain is more vulnerable to long-term impact from alcohol and other drugs.

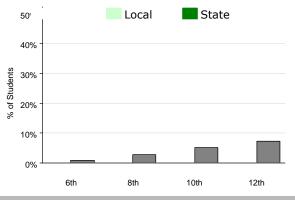

#### For More Information

#### **Dietary Behaviors for Edmonds Elementary (Edmonds School District)**

family
Drink sweetened
drinks daily at

school

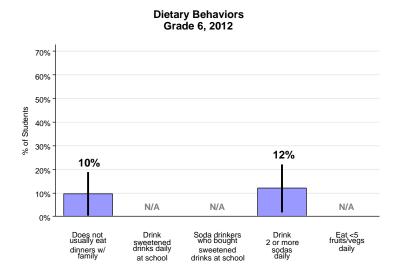

Year: 2012 Grade: 6 Gender: Both Number of Students Surveyed: 42

#### Background:

- · A nutritious diet can reduce major risk factors for chronic disease such as obesity, high blood pressure, and high blood cholesterol.
- · Poor nutrition has the potential to affect the growth, development, health status and academic achievement of children and adolescents.
- · Individual food choices are made within the context of the family and the community.
- In order to be able to choose a nutritious diet, an affordable supply of health-promoting foods must be available.

#### For More Information:

#### Family Protective Factors for Edmonds Elementary (Edmonds School District)

Year: 2012 Grade: 6 Gender: Both Number of Students Surveyed: 42

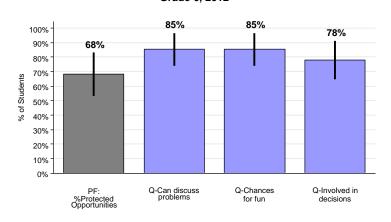

#### Background:

- · Children who are attached to positive families are less likely to develop problems in adolescence.
- When parents set clear and healthy standards for children's behavior, when they are widely and consistently supported, and when the consequences for not following the standards are consistent, young people are more likely to make healthy choices.

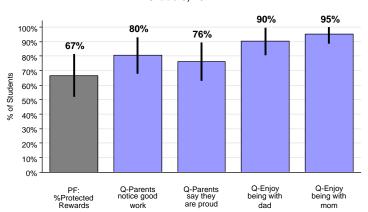

#### For More Information:

- Parents, schools, kids, and communities can work together to keep youth safe. To see how State and local partners are addressing these issues, see
  listings on the AskHYS homepage.
- For free guides on preventing alcohol and other drug use, call the ADAI Clearinghouse at the University of Washington: 206-221-8325, or adaiclearinghouse.org.

#### **Bullying and Harassment for Edmonds Elementary (Edmonds School District)**

Year: 2012 Grade: 6 Gender: Both Number of Students Surveyed: 42

#### Background:

- · All Washington schools must implement model policies and procedures that prohibit harassment, intimidation and bullying.
- Bullying is when an aggressor says or does nasty or unpleasant things to a targeted student. It is also bullying when targeted students are teased
  repeatedly in ways they don't like.
- · Students who report being bullied also report getting lower grades in school.
- · Researchers have identified evidence-based programs that reduce bullying and build positive school climates.

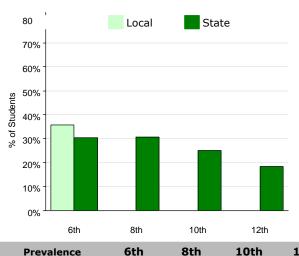

#### For More Information:

#### **Current Marijuana Use for Edmonds Elementary (Edmonds School District)**

Year: 2012 Grade: 6 Gender: Both Number of Students Surveyed: 42

#### Background:

- · Smoking marijuana affects neuropsychological functioning, such as hand-eye coordination, reaction time, and memory.
- · Marijuana potency appears to have increased over time.
- · The earlier someone starts using marijuana, the greater their vulnerability to addiction and psychiatric disorders.

#### For More Information:

#### Physical Activity for Edmonds Elementary (Edmonds School District)

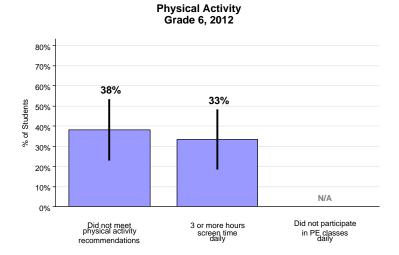

Year: 2012 Grade: 6 Gender: Both Number of Students Surveyed: 42

#### Background:

- · Regular physical activity reduces rates of obesity and serious diseases, helps people maintain a healthy body weight and improves quality of life.
- The Dietary Guidelines for Americans and the National Association for Sport & Physical Education recommend that children and adolescents participate in at least 60 minutes of physical activity most days of the week, preferably daily.
- One challenge to being more physically active is the amount of recreational screen time spent on sedentary activities such as watching TV, playing video games or using a computer for fun.
- Many social and environmental factors influence the decision to be active. Successful strategies to promote physical activity include educating
  individuals and developing policies to create environments that support being physically active.

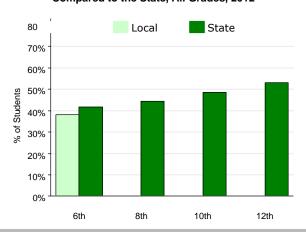

#### For More Information:

· Visit the Washington State Healthy Eating Active Living Program website: www.doh.wa.gov

In 2012, 38% of 6th graders in our s did not meet the recommendations for 60 minutes of physical activity daily.

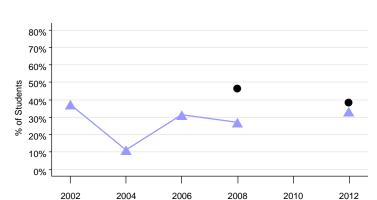

#### Did Not Meet Recommendations for Physical Activity Compared to the State, All Grades, 2012

#### Statewide Relationship between Lower Grades and **Cigarette Smoking** Grade 6, 2012

Statewide. 6th graders who smoke cigarettes are more likely to get lower grades in school (C's, D's or F's) compared to non-smokers.

#### **Unintentional Injury for Edmonds Elementary (Edmonds School District)**

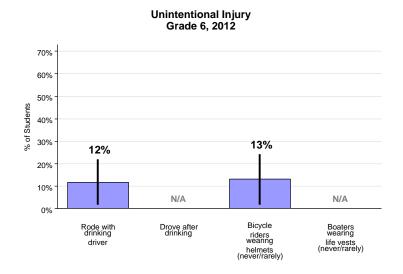

Year: 2012 Grade: 6 Gender: Both Number of Students Surveyed: 42

#### Background:

- · Unintentional injury is the leading cause of death among youth. Motor vehicle crashes are the most common cause.
- Unintentional injuries are caused by behaviors such as drinking and driving, riding with a drinking driver, riding a bike or motorcycle without a helmet, or not wearing a life jacket.
- Most unintentional injuries are not accidents because they can be prevented. Alcohol and other substances impair one's judgment and may contribute to injuries and even death.

In 2012, 13% of 6th graders in our s who rode a bicycle in the past month rarely or never wore a helmet.

#### **Unintentional Injury Trends** Grade 6 - Rode with drinking driver Wearing helmets (never/rarely) Wearing life vests (never/rarely) 70% 60% 50% % of Students 40% 30% 20% 10% 0% 2002 2004 2006 2008 2010 2012 Prevalence 2002 2004 2006 2008 2010 2012 Rode with 40% ±24\* 12% ±10 12% ±10 19% ±9 10% ±9 drinking driver Wearing helmets 14% ±11 16% ±9 17% ±11 18% ±18 13% ±11

#### Rode with Drinking Driver Compared to the State, All Grades, 2012

#### Statewide Relationship between Lower Grades and Rode with Drinking Driver Grade 6, 2012

(never/rarely)
Wearing life vests
(never/rarely)

Statewide,
6th graders who
rode with a
drinking driver
were more likely
to get lower
grades in school
(C's, D's or F's)
compared to
those who did
not.

Prevalence is displayed with 95% confidence intervals (as  $\pm$  or black bar  $|\rangle$ ) \*indicates a significant change from the previous year or a significant difference between state and local results, p<0.05

 $\hat{R}$ olent Behaviors and School Safety for Edmonds Elementary (Edmonds School District)

Year: 2012 Grade: 6 Gender: Both Number of Students Surveyed: 42

#### Background:

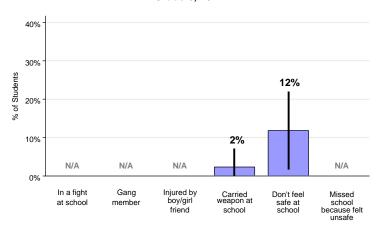

Washington Sale

- Washington schools are required to have a comprehensive school safety plan that includes: prevention, intervention, all-hazards/crisis response, and post crisis recovery (RCW 28A.320.125).
- · Schools referral systems that encourage students to report threats will help prevent violent incidents.
- · Creating a supportive learning environment is critical for student academic achievement.
- School safety requires the commitment of staff, students, parents and the community. Researchers have identified best practice programs that can
  address negative student behaviors and build positive school culture.
