Unintentional Injury for Edmonds Woodway High School (Edmonds School District)

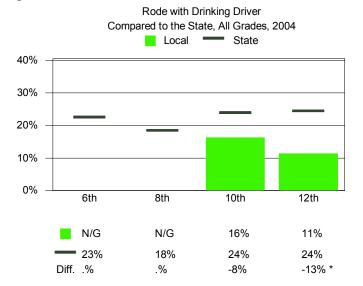

Year: 2004 Grade: 12 Gender: Both Ethnicity:

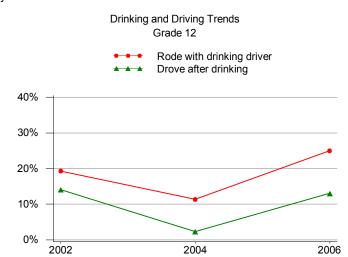

Highlights

- Unintentional injury is the leading cause of death among youth.
- Unintentional injuries are caused by behaviors such as not wearing a seatbelt, riding a bike or motorcycle without a helmet, drinking and driving, riding with a drunk driver and not wearing a life jacket.
- Motor vehicle crashes are the most common type of injury death among youth.

Prevalence **	2002	2004	2006	2008	2010
Rode with drinking driver	19% ± 11%	11% ± 10%	25% ± 19%	27% ± 11%	20% ± 4
	(57)	(44)	(24)	(62)	(382)
Drove after drinking	14% ± 9%	2% ± 4%	13% ± 14%	11% ± 8%	12% ± 3
	(57)	(43) *	(23)	(62)	(382)

From 2002 to 2004, there has been no change in riding with a drinking driver among 12th grade students in our school

Most unintentional injuries are not accidents because they can be prevented. Alcohol and other substances impair one's judgment and may contribute to the likelihood of many injuries and even death. For more information and resources, visit the Washington State Injury and Violence Prevention Website at: http://www.doh.wa.gov/hsqa/emstrauma/injury/

^{*} indicates a significant change (Wald X², p<.05)

^{**} Prevalence is displayed as the estimated percentage ± 95% confidence interval, with the number of respondents to this question in parentheses.

Violent Behaviors for Edmonds Woodway High School (Edmonds School District)

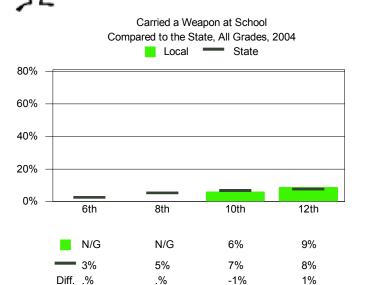

Year: 2004 Grade: 12 Gender: Both Ethnicity:

Highlights

- The federal Gun Free Schools Act requires the expulsion of students who bring firearms to school (SED. 4141) and Washington Law requires a one year expulsion for possession of firearms or dangerous weapons on school campuses. (RCW 28A.600.420 / RCW 9.41.280)
- Schools in Washington are required to have a comprehensive school safety plan that includes prevention, intervention, all-hazards/crisis response and post crisis recovery. (RCW 28A.320.125)

Harassment, Intimidation, and Bullying for Edmonds Woodway High School (Edmonds School District)

sons

Year: 2004 Grade: 12 Gender: Both Ethnicity:

Highlights

citv

- Washington State Law (RCW 28A.300.285) requires all school districts to adopt a policy that prohibits harassment, intimidation, and bullying
- The legislation also requires the Office of Superintendent of Public Instruction (OSPI) to publish a model policy at the following website: http://www.k12.wa.us/Safetycenter/LawEnforcement/Student Discipline.aspx

2004 Basis for Harassment at School Grade 12 100% 80% 60% 40% 12% 20% N/S N/S N/S 0% Race/ Reli-Sexual Gender Health Other gion or disability rea-

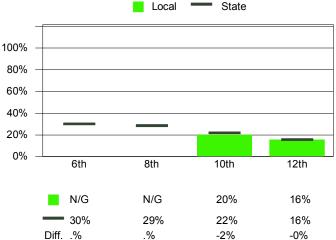

Bullying is defined as a student, or group of students, saying or doing nasty or unpleasant things to another student. It is also bullying when a student is teased repeatedly in a way he or she doesn't like.

Community Risk Factors for Edmonds Woodway High School (Edmonds School District)

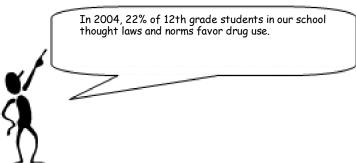

Year: 2004 Grade: 12 Gender: Both Ethnicity:

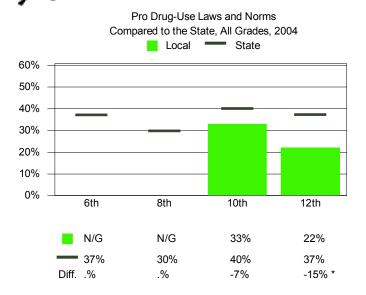

Noteworthy

- Research shows that the risk factors measured by the Healthy Youth Survey are linked to adolescent substance use, delinquency, violence, school dropout, and other risky health behaviors.
- The more risk factors a youth is exposed to, the more likely it is that she or he will engage in problem behaviors.

2004 Community Risk Factor Scales, % at Risk Grade 12

School Risk Factors for Edmonds Woodway High School (Edmonds School District)

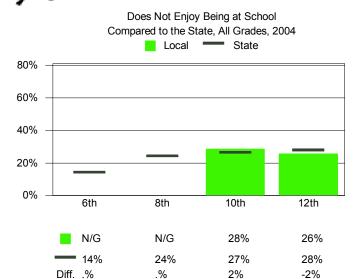

Year: 2004 Grade: 12 Gender: Both Ethnicity:

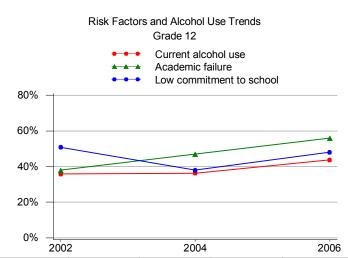

Highlights

- Research has identified a unique set of risk factors that put youth at risk for problems, such as substance use and school drop out.
- Youth who get poor grades, have friends who smoke, experience family conflict, and live in neighborhoods that are disorganized are at greater risk for negative youth behaviors.

Students in schools with high levels of risk and even moderate substance use are less likely to meet the standards for the mathematics, reading and writing sections of standardized tests.

Prevalence **	2002	2004	2006	2008	201
Current alcohol use	36% ± 9%	36% ± 10%	44% ± 15%	43% ± 9%	38% :
	(109)	(91)	(48)	(109)	(37
Academic failure	38% ± 13%	47% ± 14%	56% ± 21%	44% ± 13%	50% :
	(58)	(49)	(25)	(59)	(19
Low commitment to school	51% ± 13%	38% ± 14%	48% ± 21%	48% ± 13%	34% :
	(59)	(50)	(25)	(60)	(19

Students experiencing academic failure and lack of commitment to school are at higher risk for substance abuse, delinquency, violence, pregnancy and school drop out.

Supportive learning environments are essential for student academic achievement. Students need safe, nurturing, healthy, and civil schools in order to be successful. Researchers have identified best practice support programs that, when implemented with fidelity in schools and classrooms, can decrease risk factors and build positive school cultures.

For More Information about school risk factors, visit the website http://captus.samhsa.gov/western

Peer-Individual Protective Factors for Edmonds Woodway High School (Edmonds School District)

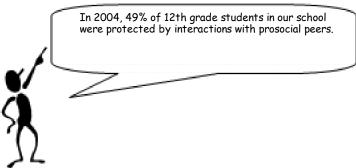

Year: 2004 Grade: 12 Gender: Both Ethnicity:

Highlights

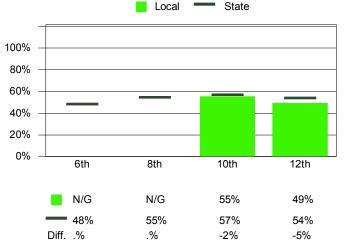

- Kids are strongly influenced by their peers. Parents need to know who their children's friends are, where they are and what they are doing.
- Kids who have the skills and opportunities to be involved in pro-social activities are less likely to engage in risky behavior.

2004 Peer-Individual Protective Factor Scales, % Protected Grade 12

Family Protective Factors for Edmonds Woodway High School (Edmonds School District)

Year: 2004 Grade: 12 Gender: Both Ethnicity:

Highlights

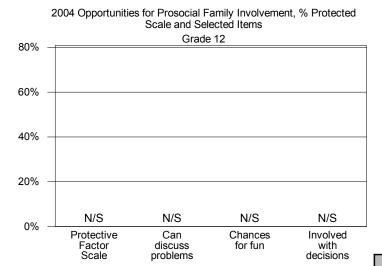

- Children who are attached to positive families are less likely to develop problems in adolescence.
- When parents set clear standards for children's behavior, when they are widely and consistently supported, and when the consequences for not following the standards are consistent, young people are more likely to follow the standards.

For More Information

Parents and caregivers are the #1 influence on a child's decisions about alcohol and other drugs. You have the power to help your child make healthy choices.

Talking with your child about his or her activities opens up an opportunity for you to share your interests and values. Young people are much less likely to have mental health and substance abuse problems when they have positive activities to do and when caring adults are involved in their lives.

For More Information, visit the Start Talking Now website at www.StartTalkingNow.org .

	The Weight and Obesity report is unavailable at the school level.						

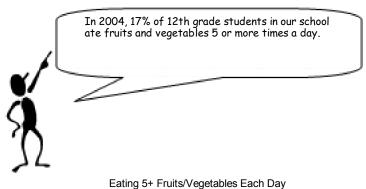

Dietary Behaviors for Edmonds Woodway High School (Edmonds School District)

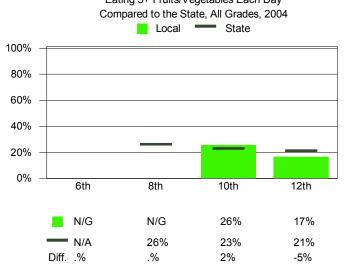

Year: 2004 Grade: 12 Gender: Both Ethnicity:

Highlights

- A nutritious diet can reduce major risk factors for chronic disease such as obesity, high blood pressure, and high blood cholesterol.
- Poor nutrition has the potential to affect the growth, development, and health status of children and adolescents.

From 2002 to 2004, there has been no change in usually eating dinner with families among 12th grade students in our school

Individual food choices are made within the context of the family and the community. In order to be able to choose a nutritious diet, an affordable supply of health-promoting foods must be available.

For More Information and resources visit the Washington State Nutrition and Physical Activity Website at: www.doh.wa.gov/cfh/nutritionpa

 $^{^{\}star}$ indicates a significant change (Wald $X^2,\,p{<}.05)$

^{**} Prevalence is displayed as the estimated percentage ± 95% confidence interval, with the number of respondents to this question in parentheses.

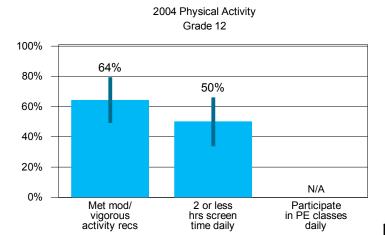

Missing Codes: S = result suppressed due to insufficient reporting from students or schools; N/P = location did not participate in the survey this year; N/G = grade not available; N/S = question was not surveyed this year; N/A = question was not asked of this grade; NB/G = this gender was not at this location Report generated at www.AskHYS.net

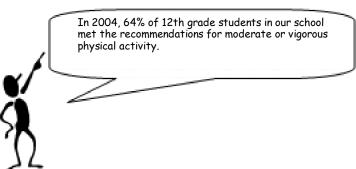

Physical Activity for Edmonds Woodway High School (Edmonds School District)

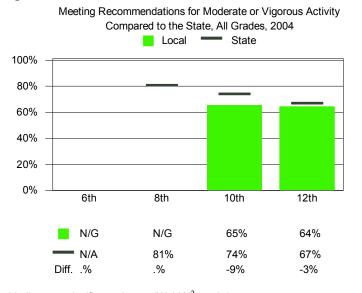

Year: 2004 Grade: 12 Gender: Both Ethnicity:

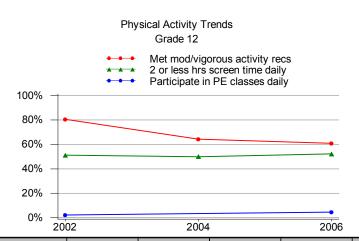

Highlights

- Regular physical activity reduces rates of obesity and serious diseases, helps people maintain a healthy body weight and improves quality of life.
- The Centers for Disease Control and Prevention (CDC) recommends 60 minutes of physical activity on five or more days a week.
- One challenge to being more physically active is the amount of recreational screen time spent on sedentary activities such as watching TV, playing video games or using a computer for fun.

Prevalence **	2002	2004	2006	2008	201
Met mod/vigorous activity recs	80% ± 12% (46)	64% ± 15% (42)	61% ± 22% (23)	60% ± 13% (57)	N/S
2 or less hrs screen time daily	51% ± 15% (47)	50% ± 16% (40)	52% ± 22% (23)	46% ± 13% (57)	39% ± (180
Participate in PE classes daily	2% ± 3% (47)	N/A	5% ± 7% (22)	5% ± 6% (57)	2% ± (183

From 2002 to 2004, there has been no change in 2 hours or less of daily screen time among 12th grade students in our school

Many social and environmental factors influence the decision to be active. Successful strategies to promote physical activity include educating individuals and developing policies to create environments that support being physically active.

For More Information and resources visit the Washington State Nutrition and Physical Activity Website at: www.doh.wa.gov/cfh/nutritionpa

 $^{^{\}star}$ indicates a significant change (Wald $X^2,\,p{<}.05)$

Youth Asthma Trends Grade 12 Doctor diagnosed asthma Asthma attack or meds past year 50% 40% 30% 20% 2002 2004 2006

Prevalence **	2002	2004	2006	2008	201
Doctor diagnosed asthma	24% ± 13% (46)	26% ± 14% (43)	4% ± 7% (23) *	16% ± 10% (55)	20% ± (183
Asthma attack or meds past year	26% ± 13% (46)	26% ± 14% (43)	4% ± 7% (23) *	N/S	N/S

All youth with asthma should have a written asthma action plan to follow in the event of an attack.

Asthma is a lung disease that causes trouble with breathing, usually in episodes called attacks. An attack can be triggered by exercise, exposure to smoke, mold, allergens like pet dander, and air pollution such as diesel exhaust. Asthma can be controlled by avoidance of asthma triggers, regular health care visits, compliance with medication schedules, and maintaining appropriate weight.
