

# Unintentional Injury for Terrace Park School (Edmonds School District)

Year: 2002 Grade: 6 Gender: Both Ethnicity:

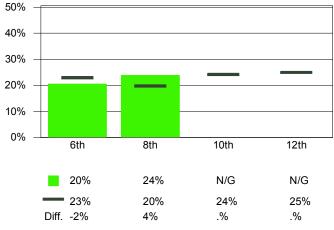

## Highlights

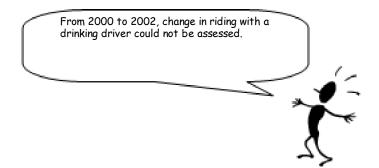

- Unintentional injury is the leading cause of death among youth. •
- Unintentional injuries are caused by behaviors such as not wearing a seatbelt, riding a bike or motorcycle without a helmet, drinking and driving, riding with a drunk driver and not wearing a life jacket.
- Motor vehicle crashes are the most common type of injury death among youth.

Local State

#### For More Information

Most unintentional injuries are not accidents because they can be prevented. Alcohol and other substances impair one's judgment and may contribute to the likelihood of many injuries and even death. For more information and resources, visit the Washington State Injury and Violence Prevention Website at: http://www.doh.wa.gov/hsqa/emstrauma/injury/

Violent Behaviors for Terrace Park School (Edmonds School District)

Year: 2002 Grade: 6 Gender: Both Ethnicity:

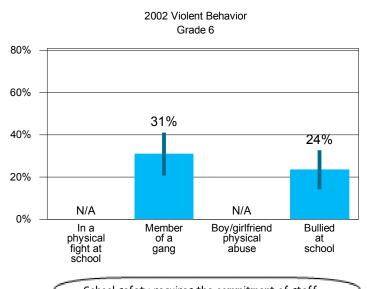

## Highlights

 The federal Gun Free Schools Act requires the expulsion of students who bring firearms to school (SED. 4141) and Washington Law requires a one year expulsion for possession of firearms or dangerous weapons on school campuses. (RCW 28A.600.420 / RCW 9.41.280)

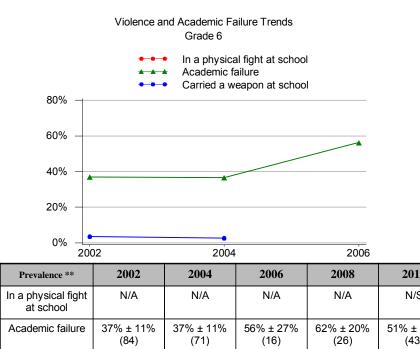

Carried a weapon

at school

 Schools in Washington are required to have a comprehensive school safety plan that includes prevention, intervention, all-hazards/crisis response and post crisis recovery. (RCW 28A.320.125)

School safety requires the commitment of staff, students, parents and the community. Researchers have identified best practice programs that can address negative student behaviors and build positive school culture.

\* indicates a significant change (Wald X<sup>2</sup>, p<.05)

Community Risk Factors for Terrace Park School (Edmonds School District)

Year: 2002 Grade: 6 Gender: Both Ethnicity:

#### Noteworthv

- Research shows that the risk factors measured by the Healthy Youth Survey are linked to adolescent substance use, delinquency, violence, school dropout, and other risky health behaviors.
- The more risk factors a youth is exposed to, the more likely it is that she or he will engage in problem behaviors.

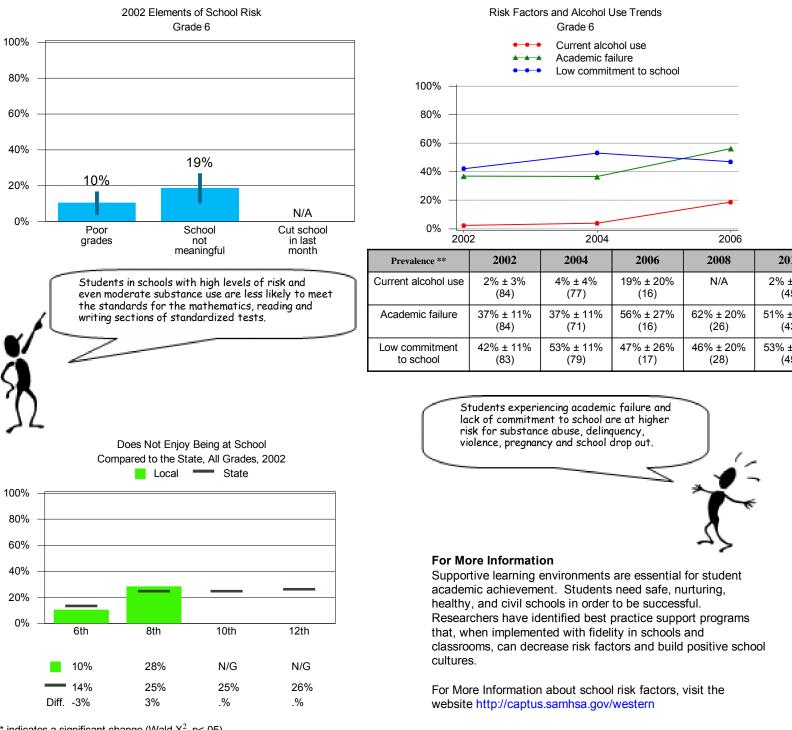

# School Risk Factors for Terrace Park School (Edmonds School District)

Year: 2002 Grade: 6 Gender: Both Ethnicity:

#### Hiahliahts

- Research has identified a unique set of risk factors that put youth at risk for problems, such as substance use and school drop out.
- Youth who get poor grades, have friends who smoke, experience family conflict, and live in neighborhoods that are disorganized are at greater risk for negative youth behaviors.

\* indicates a significant change (Wald X<sup>2</sup>, p<.05)

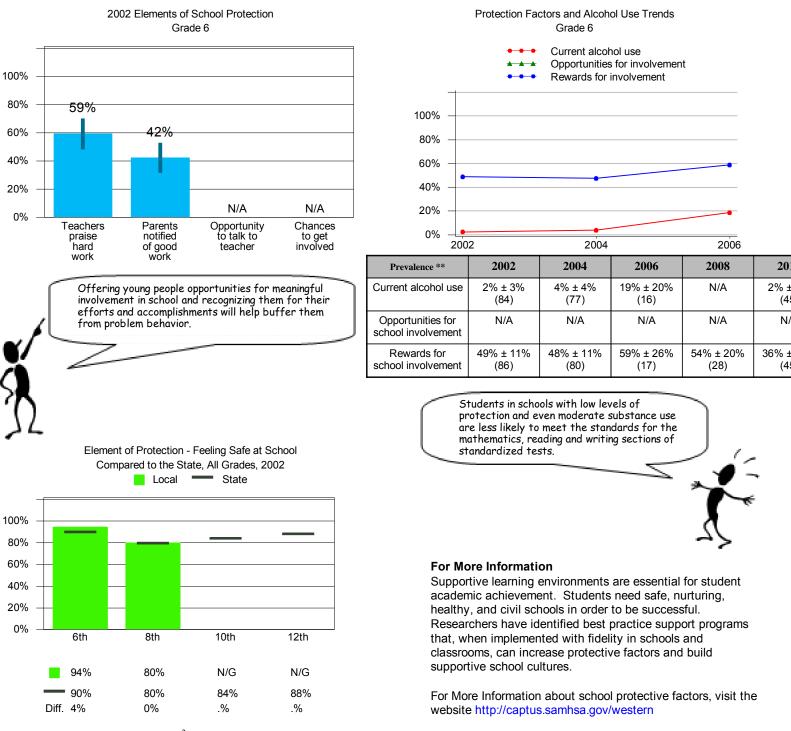

School Protective Factors for Terrace Park School (Edmonds School District)

Year: 2002 Grade: 6 Gender: Both Ethnicity:

#### Highlights

- Research has identified a unique set of protective factors that buffer youth from problems such as substance use and school drop out.
  - Youth who are involved in positive school activities, have well developed social skills, are attached to their families, and live in
- neighborhoods that invite positive participation are at less risk for negative youth behaviors.

\* indicates a significant change (Wald X<sup>2</sup>, p<.05)

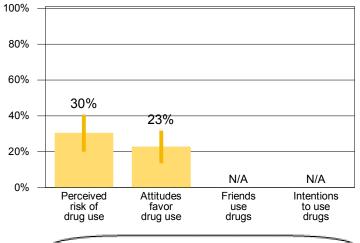

Peer-Individual Risk Factors for Terrace Park School (Edmonds School District)

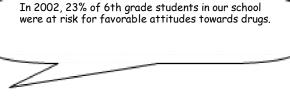

Year: 2002 Grade: 6 Gender: Both Ethnicity:

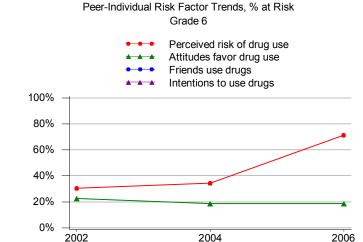

## Highlights

- Research shows that the risk factors measured by the Healthy Youth Survey are linked to adolescent substance use, delinquency, violence, school dropout, and other risky health behaviors.
- The attitudes kids have about drug use strongly influence the likelihood they will use drugs. Families and communities should model healthy
  attitudes and choices.

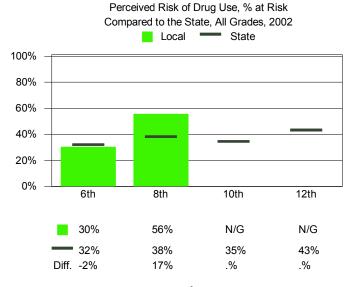

2002 Peer-Individual Risk Factor Scales, % at Risk Grade 6

Physical Activity for Terrace Park School (Edmonds School District)

Year: 2002 Grade: 6 Gender: Both Ethnicity:

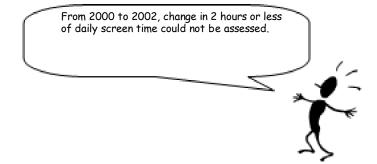

# Highlights

- Regular physical activity reduces rates of obesity and serious diseases, helps people maintain a healthy body weight and improves quality of life.
- The Centers for Disease Control and Prevention (CDC) recommends 60 minutes of physical activity on five or more days a week.
- One challenge to being more physically active is the amount of recreational screen time spent on sedentary activities such as watching TV, playing video games or using a computer for fun.

Grade 6 Met mod/vigorous activity recs 2 or less hrs screen time daily Participate in PE classes daily 100% 80% 60% 40% 20% 0% 2002 2004 2006 2002 2004 2006 2008 201 Prevalence \*\* Met mod/vigorous N/A N/A N/A N/A N/\$ activity recs 80% ± 9% 65% ± 25% 79% ± 16% 2 or less hrs 68% ± 10% N/\$ screen time daily (87) (79)(17)(28)Participate in PE N/A N/A N/A N/A N/\$ classes daily

Physical Activity Trends

#### For More Information

Many social and environmental factors influence the decision to be active. Successful strategies to promote physical activity include educating individuals and developing policies to create environments that support being physically active.

\* indicates a significant change (Wald X<sup>2</sup>, p<.05)

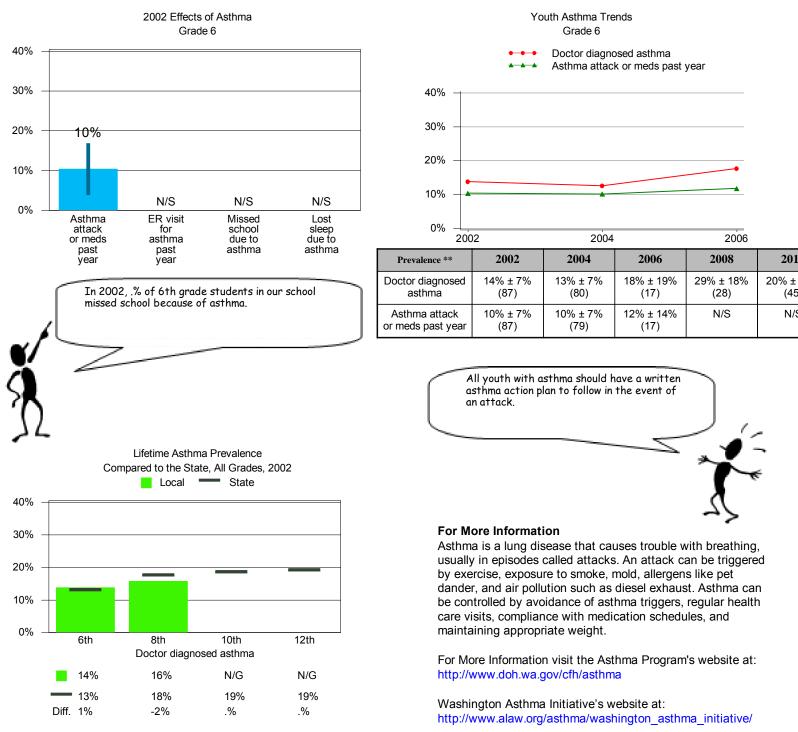

Asthma for Terrace Park School (Edmonds School District)

Year: 2002 Grade: 6 Gender: Both Ethnicity:

# Highlights

- In Washington State, about one in five youth have been diagnosed with asthma.
- Among youth with asthma, about one in five had at least one visit to an emergency department for asthma attack during 2006.
- Youth who smoke are more likely to have asthma.

\* indicates a significant change (Wald X<sup>2</sup>, p<.05)

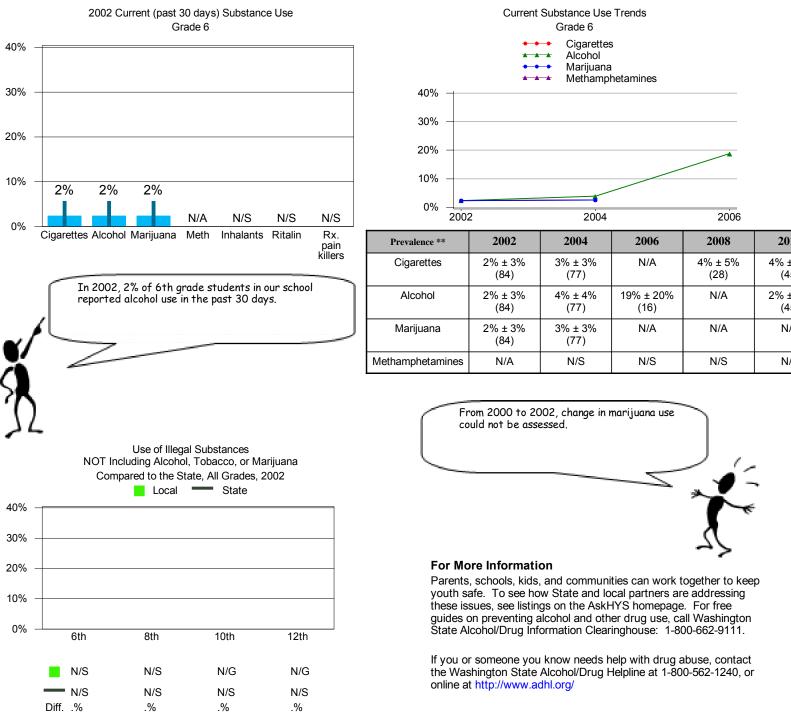

Current Substance Use for Terrace Park School (Edmonds School District)

Year: 2002 Grade: 6 Gender: Both Ethnicity:

#### Highlights

- Parents are the primary influence on their children's decision to use alcohol, tobacco, and other drugs.
- Brain development continues into the early twenties. The growing brain is more vulnerable to long-term impact from alcohol and other drugs.

\* indicates a significant change (Wald X<sup>2</sup>, p<.05)

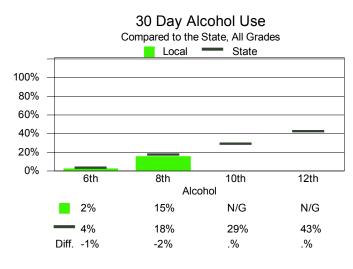

Alcohol Use for Terrace Park School (Edmonds School District), page 1 of 2

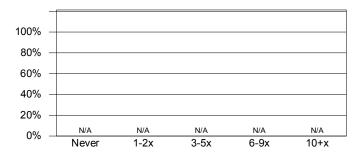

Year: 2002 Grade: 6 Gender: Both Ethnicity:

# Highlights

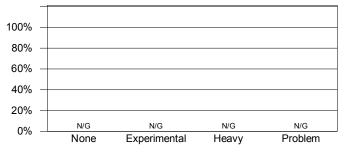

- Alcohol is implicated in nearly a third of youth traffic fatalities. It is also associated with violence, suicide, educational failure, and sexual
  activity.
- Contrary to earlier beliefs, recent research shows that alcohol can affect the developing adolescent brain.
- Most kids find it easy to get alcohol from friends, at parties, or from home.

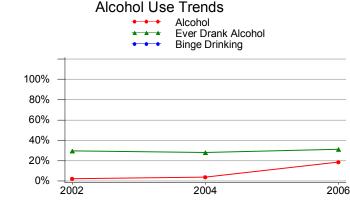

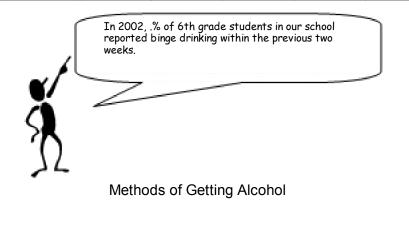

<sup>•</sup> None: no drinking in the past 30 days.

- Experimental: 1-2 days drinking, and no binge drinking.
- Heavy: 3-5 days drinking, and/or one binge.
- Problem: 6+ days drinking, and/or 2+ binge.
